Faizan Asad Khan

FRONTEND DEVELOPER

+92 333 3846157 | faizikhan753@gmail.com | karachi, Pakistan | linkedin.com/in/faizan-asad-khan/

Summary

Frontend Software Engineer specializing in React and Next.js, with strong expertise in JavaScript and problem-solving. Experienced in designing and developing user-friendly, responsive web applications with a focus on performance and cross-browser compatibility. Proven ability to collaborate with cross-functional teams, including designers and backend developers, to deliver seamless user experiences. Skilled in implementing best practices to optimize application performance and enhance usability. Strong team player with leadership capabilities to drive successful project outcomes.

Experience

Gateso Dec 2025 – Present

Senior Frontend Developer *Karachi, Pakistan*

- Built and optimized user interfaces for a fintech trading platform, focusing on performance, scalability, and real-time data presentation.
- Developed and maintained responsive web applications using Next.js, React.js, HTML5, and CSS3, ensuring cross-browser and cross-device compatibility.
- Worked closely with UI/UX designers and product teams to translate design requirements into high-quality, user-focused web interfaces.

Meri Sehat Dec 2023 – Dec 2025

Assistant Manager, Frontend Engineer *Karachi, Pakistan*

- Engineered responsive, user-focused front-end solutions using core technologies including HTML, CSS, and ReactJS, ensuring compatibility across modern browsers and devices.
- Collaborated closely with UI/UX designers and backend developers to integrate features and ensure seamless functionality
- Built a web application for doctors, clinics, and medication management, focusing on intuitive navigation and accessibility to enhance user experience for medical professionals and patients.

Legendesk April 2023 – Dec 2023

Senior UI/UX Developer *Karachi, Pakistan*

- Lead the design and development of UI/UX strategies, wireframes, prototypes, and high-fidelity visual designs.
- Collaborate with product managers, developers, and other stakeholders to understand user needs and deliver elegant solutions.
- My role is to translate creative software design concepts and ideas into reality using frontend technology. I have created multiple websites.

Cubix. May 2021 – Mar 2023

Assistant Software Engineer *Karachi, Pakistan*

- Create UI using HTML and CSS. Making a WordPress website. Also creating functions using JavaScript, and working with frameworks like ReactJS
- Dominos: It is a gaming website where users can play the domino game with their domi coin, and it is created on ReactJS.
- PropChain: The website is for real estate where user can purchase and sell their home, and it's created on Angular.
